

# how it works

- **arrow keys**  
Adjust the volume and switch the device ON and OFF.
- **change language**  
Just keep clicking until you hear a message in your language.
- **memorize**  
You can save your current location in one of the four memory registers.
- **simple interface**  
Each command is accompanied by a clear voice confirmation.
- **navigation mode**  
You can save up to four current locations and then use them as navigation targets whenever you need.
- **remind**  
This button turns on the navigation mode that will guide you to one of the previously saved locations of your choice.

Please note that the device is an interactive audio-book, not a navigator. It is only equipped with a very basic navigation function, which helps you orient yourself relative to one of four previously saved destinations, leaving to you the choice of a route.

The device will switch off automatically if satellite signal is not available for an extended period of time or if the battery is depleted.

## explore with freedom

Thanks to this tiny device, you are able to explore the city and learn about its history in an entirely fresh, free-spirited way. No more shopping for tours or waiting for the tour bus. Simply switch on your guide and set off on a ramble through the city's streets, indulging in stories about sights that you see. Now your city experience is truly liberating.

## interesting stories

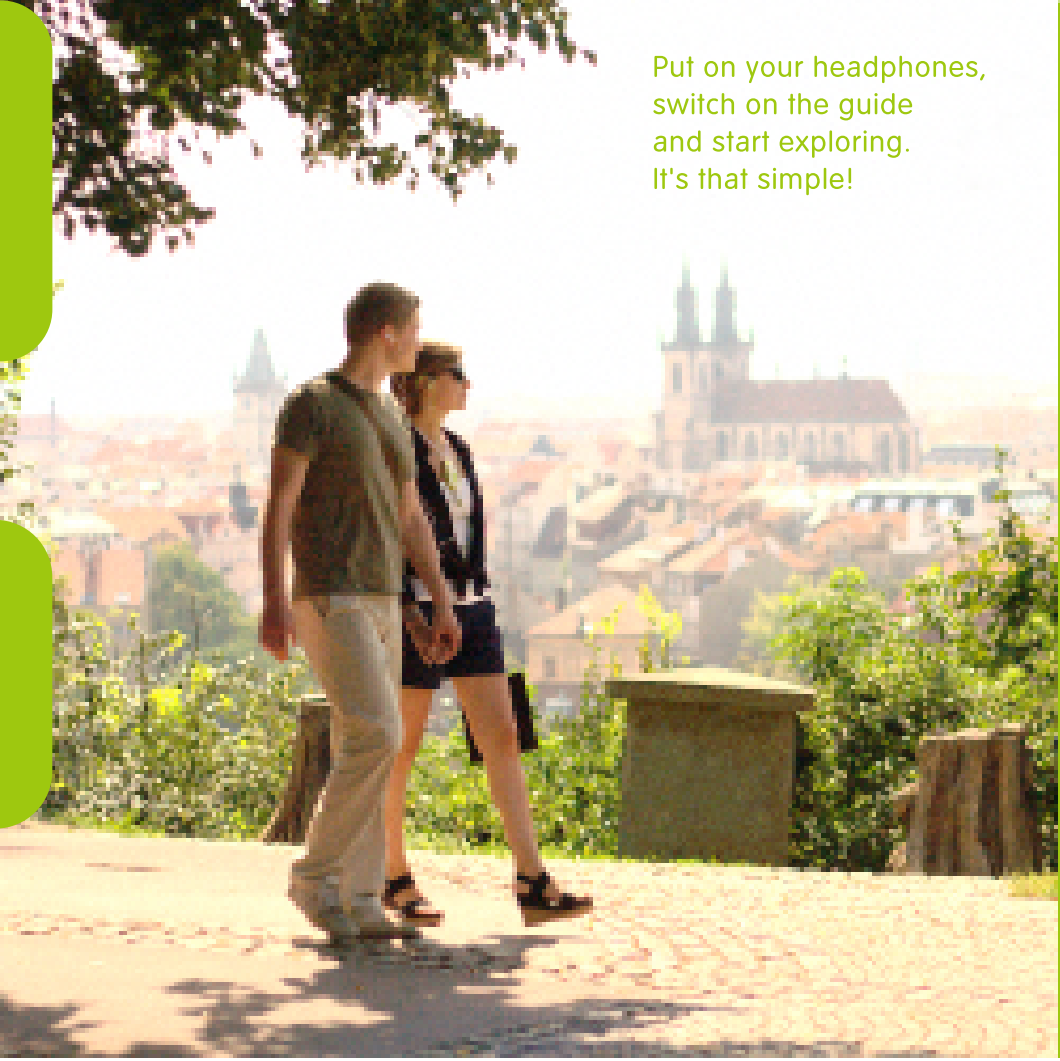

All stories have been prepared by experts who are passionate about the city and their work. We have teamed up with professional writers and narrators to record an audio program that was specially crafted for interactive use.

## more than 100 locations

Today our interactive audio-book contains more than 8 hours of captivating stories for each language and we are continuing to expand the scope. We hope that you will enjoy listening as much as we enjoyed bringing these stories to you – and we are sure that you will learn a great deal about the city and its compelling history.

## guide in your language

The guide is already available in English, French, German, Italian, Spanish and Russian – and you can switch between languages at any time in one click.

Put on your headphones, switch on the guide and start exploring. It's that simple!
